Quarterly District Financial Information

CoBank, ACB and Affiliated Associations

Introduction and District Overview

CoBank, ACB (CoBank, the Bank, we, our, or us) is one of the four banks of the Farm Credit System (System) and provides loans, leases and other financial services to support agriculture, rural infrastructure and rural communities across the United States. The System is a federally chartered network of borrower-owned lending institutions composed of cooperatives and related service organizations. The System was established in 1916 by the U.S. Congress, and is a Government Sponsored Enterprise. CoBank is federally chartered under the Farm Credit Act of 1971, as amended (the Farm Credit Act), and is subject to supervision, examination, and safety and soundness regulation by an independent federal agency, the Farm Credit Administration (FCA).

We are cooperatively owned by our U.S. customers. Our customers consist of agricultural cooperatives; other food and agribusiness companies; rural energy, communications and water cooperatives and companies; rural community facilities; farmer-owned financial institutions including Agricultural Credit Associations and Federal Land Credit Associations (Associations); and other businesses that serve agriculture and rural communities. The Associations originate and service long-term real estate mortgage loans as well as short- and intermediate-term loans for agricultural purposes. The Bank and Associations may also purchase eligible loan participations from System entities and other lending institutions. Additionally, the Associations serve as an intermediary in offering multi-peril crop insurance and credit life insurance, and providing additional financial services to borrowers.

We are chartered by the FCA to serve the Associations that provide credit and related financial services to or for the benefit of eligible borrowers/shareholders for qualified purposes in specific geographic areas in the United States. We collectively refer to these entities as our affiliated Associations. Associations are not authorized by the Farm Credit Act to participate in the issuance of Systemwide bonds, medium term notes and discount notes (collectively referred to as Systemwide Debt Securities). Therefore, we are the primary funding source for our affiliated Associations. As of June 30, 2016, we have 24 affiliated Associations serving customers in 23 states across the Northwest, West, Southwest, Rocky Mountains, Mid-Plains, and Northeast regions of the United States.

Our affiliated Associations are considered customers and thus operate independently and maintain an arms-length relationship with us, except to the extent that the Farm Credit Act requires us, as the funding bank, to monitor and approve certain activities of these Associations. Accordingly, the financial information of affiliated Associations is not included in the condensed consolidated quarterly financial statements presented in CoBank's June 30, 2016 Quarterly Report to Shareholders. However, because of the interdependent manner in which CoBank and our affiliated Associations operate, we believe that presenting combined Bank and Association quarterly financial information could be meaningful for purposes of additional analysis.

The Financial Highlights, Discussion and Analysis and the Condensed Combined Statements of Income and Balance Sheets included on the following pages present unaudited combined financial information and related analysis of CoBank and its affiliated Associations, which are collectively referred to as the "District." As part of the combining process, all significant transactions between CoBank and the Associations, including loans made by the Bank to the affiliated Associations and the interest income/interest expense related thereto, and investments of the affiliated Associations in the Bank and the earnings related thereto, have been eliminated.

Quarterly District Financial Information

CoBank, ACB and Affiliated Associations

Discussion and Analysis of District Results of Operations and Financial Condition

District average loan volume increased 12 percent to \$100.6 billion in the first six months of 2016, compared to \$89.9 billion for the same period of 2015. The increase in average loan volume primarily reflected growth in real estate mortgage, agribusiness and energy loans.

District net income increased \$42.6 million for six-month period ended June 30, 2016, compared to the same period of 2015. The increase in earnings primarily resulted from higher levels of net interest income and noninterest income, partially offset by increases in operating expenses and the provision for loan losses.

Net interest income increased to \$1,368.9 million for the first half of 2016 from \$1,258.9 million for the same period in 2015. The increase in net interest income was driven by growth in average loan volume and increased earnings on balance sheet positioning at CoBank, somewhat offset by lower overall spreads in lending portfolios resulting from continued strong competition for the business of customers and a higher cost of short-term debt. Lower spreads led to a decrease in the District's overall net interest margin to 2.15 percent for the six months ended June 30, 2016 as compared to 2.23 percent for the same period in 2015.

The District recorded a provision for loan losses of \$54.6 million in the six-month period ended June 30, 2016, compared to \$16.2 million for the same period of 2015. CoBank recorded a provision for loan losses of \$28.0 million in the first half of 2016 compared to \$10.0 million during the 2015 period. The 2016 provision at CoBank reflects a higher level of lending activity and a slight deterioration in credit quality in the agribusiness portfolio. The Associations recorded a net combined provision for loan losses of \$26.6 million for the first six months of 2016, compared to a net combined provision of \$6.2 million in the same period of 2015. The net combined 2016 provision for loan losses at the Associations was primarily due to provisions recorded across five Associations resulting from higher loan volume as well as slight deterioration in credit quality driven by drought, commodity price volatility and other concerns impacting specific industries.

Noninterest income increased \$4.8 million to \$158.1 million for the first six months 2016 from \$153.3 million for the same period in 2015. Noninterest income is primarily composed of fee income, loan prepayment income, patronage income and miscellaneous gains and losses, offset by losses on early extinguishments of debt. The increase in noninterest income includes the impact of impairment losses of \$11.1 million recognized on investment securities during the second quarter of 2015. No impairment losses on investment securities were recorded during the 2016 period. Other noninterest income increased \$9.8 million during the 2016 period primarily resulting from an increase in patronage income received from other System institutions on loan participations sold by CoBank. Fee income increased \$4.4 million during the six-month period ended June 30, 2016 primarily due to an increase in fees at Associations. These items were somewhat offset by a \$20.5 million decrease in gains recognized on sales of investment securities. In the 2015 period, CoBank sold investment securities with a combined book value of \$127.8 million for gains totaling \$21.8 million. During the six-month period ended June 30, 2016, sales of investment securities at CoBank resulted in gains totaling \$1.3 million. Prepayment income, net of losses on early extinguishments of debt, totaled \$3.2 million during the six months ended June 30, 2016, which was consistent with the 2015 period, notwithstanding an overall lower level of customer refinancing activity in the 2016 period at CoBank.

District operating expenses increased \$47.1 million to \$513.9 million in the first half of 2016 from \$466.8 million for the same period of 2015. Higher operating expenses included an increase in Farm Credit Insurance Fund (Insurance Fund) premium expense of \$23.7 million, due to an increase in premium rates as well as growth in average loan volume. Insurance Fund premium rates are set by the Farm Credit System Insurance Corporation (Insurance Corporation) and were 16 basis points of adjusted insured debt obligations during the first six months of 2016 compared to 13 basis points throughout 2015. The premium rate will increase to 18 basis points of adjusted insured debt obligations for the second

half of 2016. The increases in Insurance Fund premium rates resulted from higher than anticipated growth in overall System assets and related debt obligations in 2015 and the Insurance Corporation's projections for continued growth in 2016. Employee compensation expense increased \$10.0 million to \$272.5 million for the six months ended June 30, 2016. The increase in employee compensation was primarily driven by annual salary adjustments, increased incentive compensation accruals and a higher overall number of employees in the first half of 2016 compared to the same period in 2015. Occupancy and equipment expenses increased \$9.7 million due to increased expenditures at CoBank associated with a new corporate headquarters in Greenwood Village, Colorado, as well as higher costs relating to improvements and maintenance at three Associations. Purchased services increased by \$5.1 million and other operating expenses decreased by \$3.7 million primarily due to a change in expense classification at one Association.

Income tax expense decreased \$13.2 million for the six-month period ended June 30, 2016 compared to the same period of 2015. The income tax expense at the District predominantly relates to CoBank, as a substantial majority of the business activities at Associations are exempt from federal income tax. The decrease was driven by higher levels of accrued patronage, which resulted from growth in average patronage-eligible loan volume, and an increase in earnings attributed to non-taxable business activities.

Loan Portfolio

The following table presents the District's outstanding loans classified in accordance with the FCA's loan types.

(\$ in Thousands)

District Loans by Loan Type	June 30, 2016	December 31, 2015
Real Estate Mortgage	\$ 29,782,504	\$ 28,720,815
Non-affiliated Associations	4,514,122	4,291,104
Production and Intermediate-term	13,027,157	13,866,604
Agribusiness:		
Loans to Cooperatives	14,171,688	11,790,613
Processing and Marketing Operations	8,773,270	8,225,584
Farm Related Businesses	1,726,003	1,701,660
Communications	3,929,377	4,042,813
Energy	15,997,891	15,207,910
Water/Waste Water	1,423,756	1,447,650
Agricultural Export Finance	4,863,690	4,642,753
Rural Residential Real Estate	896,341	899,763
Lease Receivables	3,386,799	3,375,203
Other	157,910	170,169
Total	\$ 102,650,508	\$ 98,382,641

District loan volume at June 30, 2016 was \$102.7 billion compared to \$98.4 billion at December 31, 2015. The increase was primarily due to growth in CoBank's agribusiness portfolio driven by higher levels of seasonal financing at many grain cooperatives and lending to food and agribusiness companies resulting from new customer growth. Higher loan volume also included increases in real estate mortgage loans at several Associations and energy loans at CoBank. These factors were partially offset by a decrease in production and intermediate-term loan volume primarily due to typical seasonal repayment activity attributed to crop sales during the first half of the year and tax mitigation planning.

Loan Quality

The following table presents loans and related accrued interest receivable, classified by management at the various District entities pursuant to the FCA's Uniform Loan Classification System, as a percent of total loans and related accrued interest.

District Loan Quality		
	June 30, 2016	December 31, 2015
Acceptable	95.56 %	96.39 %
Special Mention	2.70	2.00
Substandard	1.73	1.60
Doubtful	0.01	0.01
Loss	-	-
Total	100.00 %	100.00 %

Loan quality within the District remains favorable, with approximately 96 percent of all loans and related accrued interest in the highest category of credit quality. The increase in Special Mention and Substandard loans during the first half of 2016 is primarily due to slight deterioration in credit quality in agricultural lending at various Associations and in the agribusiness loan portfolio at CoBank. Credit risk in the District's loan portfolio is spread broadly among customers, industries and geographic territory. The District serves a diversified spectrum of borrowers up and down the agricultural value chain. Association retail loans in the District loan portfolio are concentrated in the Northwest, West, Southwest, Rocky Mountains, Mid-Plains, and Northeast regions of the United States. CoBank's commercial loan portfolio extends across the United States, with moderate levels of concentration in the Midwest region of the country and in the farm supply, grain marketing, electric distribution, and generation and transmission sectors.

Nonperforming assets (which consist of nonaccrual loans, accruing restructured loans, accruing loans 90 days or more past due and other property owned) totaled \$527.2 million as of June 30, 2016, compared to \$520.6 million at December 31, 2015. Nonaccrual loans decreased by a net \$32.6 million during the first six months of 2016 which was driven by a \$41.4 million net decrease at CoBank primarily resulting from activity related to two communications loans, of which one was returned to accruing status and the other was paid off. Accruing restructured loans increased by \$33.9 million to \$90.1 million in the six-month period ended June 30, 2016 also due to the communications loan at CoBank returning to accruing status, somewhat offset by the payoff of a dairy loan and two cattle loans at Associations. Total accruing loans 90 days or more past due increased by \$10.7 million during the first half of 2016 primarily due to an increase at one Association. Nonperforming assets represented 0.51 percent of total District loan volume and other property owned at June 30, 2016, compared to 0.53 percent at December 31, 2015. Nonaccrual loan volume, the largest component of nonperforming assets, represented 0.40 percent of total loans at June 30, 2016 compared to 0.45 percent of total loans at December 31, 2015.

The following table displays the District's nonperforming assets for the periods presented.

(\$ in Thousands)

Nonperforming Assets	June 30, 2016	December 31, 2015
Nonaccrual Loans:		
Real Estate Mortgage	\$ 212,201	\$ 196,925

District entities maintain an allowance for loan losses at a level consistent with the probable losses identified by management of each institution, considering such factors as current agricultural and economic conditions, loan loss experience, portfolio quality, and loan portfolio composition and concentrations. CoBank and certain Associations also maintain a reserve for unfunded commitments, which totaled \$146.0 million at June 30, 2016.

Although aggregated in the District's condensed combined financial statements, the allowance for loan losses for each District entity is particular to that institution and is not available to absorb losses realized by other District entities. The allowance for loan losses at June 30, 2016 totaled \$806.1 million compared to \$745.5 million at December 31, 2015. Changes in the allowance included an overall net provision for loan losses of \$54.6 million, which is described on page 3, a \$12.1 million net transfer from the reserve for unfunded commitments, charge-offs of \$9.6 million and recoveries of \$4.4 million.

The following presents detailed changes in the allowance for loan losses in the District for the periods presented.

District Capital Resources and Other

Combined District shareholders' equity at June 30, 2016 totaled \$17.4 billion, a net increase of \$1,239.9 million as compared to December 31, 2015. The increase primarily resulted from District net income of \$873.8 million, the issuance of preferred stock at CoBank, as discussed below, and a decrease in accumulated other comprehensive loss of \$289.0 million. These items were somewhat offset by accrued patronage of \$257.5 million, preferred stock dividends of \$39.4 million and a decrease in Association preferred stock of \$20.7 million.

On April 8, 2016, CoBank issued \$375.0 million of Series I non-cumulative perpetual preferred stock. Dividends on Series I preferred stock, if declared by the Board of Directors in its sole discretion, are non-cumulative and are payable semi-annually at a fixed annual rate equal to 6.25 percent from the date of issuance up to, but excluding, October 1, 2026. Thereafter, dividends will accrue at an annual rate equal to the 3-month USD LIBOR plus 4.66 percent and will be payable quarterly.

The components of the District's accumulated other comprehensive loss are detailed in the following table.

(\$ in Thousands)

Accumulated Other Comprehensive Loss		June 30, 2016	December 31, 2015
Unrealized Gains on Investment Securities	\$	337,414	\$ 48,754
Net Pension Adjustment		(332,176)	(342,188)
Unrealized Losses on Interest Rate Swaps and Other Financial Instruments		(49,821)	(40,157)
Accumulated Other Comprehensive Loss	\$	(44,583)	\$ (333,591)

The decrease in the District's total accumulated other comprehensive loss during the first half of 2016 is primarily due to an increase in unrealized gains on investment securities at CoBank driven by interest rate changes.

The following table presents regulatory capital ratios for CoBank and the range of ratios at the affiliated Associations.

District Capital Ratios						
	June 30, 2016			December 31, 2015		
	Permanent Capital Ratio	Total Surplus Ratio	Core Surplus Ratio	Permanent Capital Ratio	Total Surplus Ratio	Core Surplus Ratio
CoBank	14.95%	14.01%	10.57%	14.95%	14.07%	10.29%
Associations	13.95 - 35.98%	13.16 - 35.51%	13.16 - 30.57%	13.53 - 35.97%	12.99 - 35.51%	12.99 - 30.44%
Regulatory Minimum	7.00%	7.00%	3.50%	7.00%	7.00%	3.50%

As depicted in the table above, at June 30, 2016, CoBank and all affiliated Associations exceeded the FCA's regulatory minimum capital ratios. Although aggregated in the District's condensed financial statements, capital for each District entity is particular to that institution. In addition, the provisions of joint and several liability for Systemwide Debt Securities are applicable only to System banks and do not include Associations. CoBank has no access to Association capital beyond their required investment in the Bank. There are no capital sharing agreements between CoBank and its affiliated Associations.

Association Mergers and Other Matters

Effective January 1, 2016, two of our affiliated Associations, Farm Credit Services of East Central Oklahoma, ACA, and Chisholm Trail Farm Credit, ACA, merged to form Oklahoma AgCredit, ACA.

In February 2016, the boards of directors of two affiliated Associations, Farm Credit of Southwest Kansas, ACA, and American AgCredit, ACA, signed a letter of intent to merge with an anticipated completion date of January 1, 2017. Under the letter of intent, the merged entity will do business as American AgCredit, ACA. In addition, the Associations are operating under a joint management agreement under which the President and Chief Executive Officer (CEO) of American AgCredit, ACA, is serving as the CEO of both Associations. The merger remains subject to shareholder and FCA approval.

On June 13, 2016, a complaint was filed in the United States District Court Southern District of New York against CoBank by a number of investors (the “Plaintiffs”) who had held CoBank’s 7.875 percent Subordinated Notes due in 2018 (the “Notes”). The Notes were redeemed at par plus accrued interest by CoBank on April 15, 2016 due to the occurrence of a “Regulatory Event” (as defined under the terms of the Notes). The Plaintiffs have asserted a breach of contract claim and a breach of implied covenant of good faith and fair dealing claim alleging that CoBank impermissibly redeemed the Notes. The Plaintiffs have requested damages in an amount to be determined at trial, reasonable attorneys’ fees and any other such relief as the court may deem just and proper. CoBank intends to vigorously defend against these allegations. The likelihood of any outcome of this proceeding cannot be determined at this time.
